Committee Report

23rd LD Dems Communication Report

Your Communication Committee Chair recently attended the PNW Labor History Conference in Portland Oregon. The immediate take away from that conference was a need for attention to preservation of our institutional history. Recent emails exposing our failure to save prior Candidate Endorsement/Approval Requests in archives point that out. That need for preservation is not a part of our current ByLaws and procedures and your Communication Committee thinks it's important to preserve those institutional memories and will be proposing ways to do that.

We are looking to expand the size and scope of the committee for the campaign season. Our requests for information placement have increased in number and frequency this Midterm Cycle and the weekly newsletter is not enough. Ideas and especially volunteers with ideas are needed and welcome. I know that many of you are skittish about working digitally, but if you can post to Facebook, Instagram and twitter, you already have most of the skills we need.
