

## **Chair Report – March 13, 2024**

The NKSD saga has continued with the superintendent now under a criminal diversion program. Basically, if she does nothing wrong during the term of the program, her record will be expunged. If she does not behave, she will end up in jail for a few months and will have a permanent record. She has not resigned so far.

Candidates/campaigns have been contacting the LD to arrange times to meet our LD members and seek support for their campaigns. These opportunities will be prioritized over other items as necessary. This is the point of our LD: to get Democrats elected to office.

Ted has created a flow chart to illustrate the delegate selection process. It lays out very clearly what folks need to do if they wish to become a delegate. The challenge before us is to get people to apply to be a delegate. There are only three people so far on the state website for potential delegate candidates.

I will be attending an online Chairs discussion this coming Sunday, March 17. This is an Affirmative Action Delegate Goals Discussion with special guests and Chair Shasti Conrad.

Lately, there seems to be an attempt to set meetings that do not conflict with the Sabbath which is good.

The LD meeting will be Wednesday, March 27. It will be a hybrid meeting with the in-person portion being held at the WEA Uniserv office .
